

Local school children present IMD team with artwork to say thank you

Carl Dodwell and Kevin Doyle presented with artwork for the IMD office

On 17th December 2014, Carl Dodwell and Kevin Doyle from the International Manufacturing Development team were invited to Streetsbrook Infant & Nursery School to be presented with children's artwork to display in the IMD office, as a thank you for the team's community work, building and installing play equipment at the school, over the summer.

Carl Dodwell, IMD Quality Engineer commented "This year's community project has certainly been the most rewarding and enjoyable so far and it is good to know that the staff and pupils are reaping the benefits of the equipment we installed. I am sure that all involved from JLR enjoyed the project immensely as it is an opportunity to do something different from our day to day roles and good to put something back into the community. I hope the storage shed, musical instruments and other learning equipment will get lots of enjoyment and use over the coming years."

Streetsbrook Infant & Nursery School has forged strong community links with Jaguar Land Rover Solihull over the past few years.

Debbie Butlin, Operations Manager at the school said "We have worked together on numerous projects and we are indebted to JLR for their enthusiastic work at the school. Over the summer holiday the IMD team installed tyres and musical instruments for outdoor play. The children play with the equipment daily and love their outdoor classroom! The new storage shed which the team made and constructed has made a huge impact on the outdoor facilities and storage; new equipment now fills the shed to the brim. It's an amazing resource that enhances the learning environment outdoors."

"Streetsbrook School can only reiterate that JLR - you have 'made a difference' to so many. The hard work, planning and effort is so appreciated. We hope our art work at JLR enhances your working environment too. Thank you, thank you, thank you is the message from the staff, pupils and families of Streetsbrook School."
